NOTICES

• Notice of Change in Key Dates in PA-18-842 "Administrative Supplements to Support Cancer Disparity Collaborative Research" (NOT-CA-18-090)
  National Cancer Institute

• NCI Request for Information (RFI): Input on Development of an NCI Cancer Biomarker Data Aggregator (NOT-CA-18-095)
  National Cancer Institute

• Update on the National Cancer Institute (NCI) "PREVENT Cancer Preclinical Drug Development Program: Preclinical Services for Biopharmaceutical Product Development and Manufacturing " (NOT-CA-18-096)
  National Cancer Institute

• Updated Notice of NIH's Interest in Diversity (NOT-OD-18-210)
  Office of the Director, NIH

  Office of the Director, NIH

• Notice of Early Application Receipt Date for PAR-18-854, Time-Sensitive Obesity Policy and Program Evaluation (R01 Clinical Trial Not Allowed) (NOT-DK-18-019)
  National Institute of Diabetes and Digestive and Kidney Diseases
  National Cancer Institute
  Eunice Kennedy Shriver National Institute of Child Health and Human Development
  Office of Behavioral and Social Science Research
  Office of Disease Prevention

• Notice of NCI Participation in PA-18-343, "Academic Research Enhancement Award (R15 Clinical Trial Required)" (NOT-CA-18-094)
  National Cancer Institute

PROGRAM ANNOUCMENTS

• TITLE: Advancing Mechanistic Probiotic/Prebiotic and Human Microbiome Research (R01 Clinical Trial Not Allowed) (PA-18-876)
  SPONSOR: National Institute of Dental and Craniofacial Research
  National Cancer Institute
  National Institute of Arthritis and Musculoskeletal and Skin Disease
  National Institute on Drug Abuse
  Synopsis: The purpose of this funding opportunity announcement (FOA) is twofold: (1) to stimulate basic and mechanistic science that facilitates the development of effective probiotics or pre-/probiotic combinations of relevance to human health and disease; and (2) determine biological outcomes for the evaluation of efficacy of pre/probiotics in appropriate test systems and animal models.
  Application Receipt/Submission Date(s): Standard dates apply.

• TITLE: Modular R01s in Cancer Control and Population Sciences (R01 Clinical Trial Optional) (PAR-18-869)
  SPONSOR: National Cancer Institute
  Synopsis: This funding opportunity announcement (FOA) invites applications for research in cancer control and population sciences. The overarching goal is to provide support to promote research efforts on novel scientific ideas that have the potential to substantially advance cancer research in statistical and analytic methods, epidemiology, cancer survivorship, cancer-related behaviors and behavioral interventions, health care delivery, and implementation science.
  Application Receipt/Submission Date(s): Multiple dates, see announcement.

• TITLE: Diet and Physical Activity Assessment Methodology (R01 Clinical Trial Not Allowed) (PA-18-856)
  SPONSOR: National Center for Complementary and Integrative Health
  National Cancer Institute
  National Institute of Diabetes and Digestive Kidney Diseases
  National Institute on Minority Health and Health Disparities
  Synopsis: This Funding Opportunity Announcement (FOA) encourages innovative research to enhance the quality of measurements of dietary intake and physical activity. Applications submitted to this FOA may include development of: novel assessment approaches; better methods to evaluate instruments; assessment tools for culturally diverse populations or various age groups, including children and older adults; improved technology or applications of existing
TITLE: Time-Sensitive Obesity Policy and Program Evaluation (R01 Clinical Trial Not Allowed)
(PAR-18-854)
SPONSOR: National Institute of Diabetes and Digestive Kidney Diseases
National Cancer Institute
Eunice Kennedy Shriver National Institute of Child Health and Human Development
Office of Behavioral and Social Science Research
Synopsis: This Funding Opportunity Announcement (FOA) establishes an accelerated review/award process to support time-sensitive research to evaluate a new policy or program that is likely to influence obesity related behaviors (e.g., dietary intake, physical activity, or sedentary behavior) and/or weight outcomes in an effort to prevent or reduce obesity. This FOA is intended to support research where opportunities for empirical study are, by their very nature, only available through expedited review and funding. All applications to this FOA must demonstrate that the evaluation of an obesity related policy and/or program offers an uncommon and scientifically compelling research opportunity that will only be available if the research is initiated with minimum delay. For these reasons, applications in response to this time-sensitive FOA are not eligible for re-submission. It is intended that eligible applications selected for funding will be awarded within 4 months of the application due date. However, administrative requirements and other unforeseen circumstances may delay issuance dates beyond that timeline.
Application Receipt/Submission Date(s): Multiple dates, see announcement.

TITLE: Electronic Nicotine Delivery Systems (ENDS): Basic Mechanisms of Health Effects (R01- Clinical Trial Not Allowed)
(PAR-18-846)
SPONSOR: Office of Disease Prevention
National Cancer Institute
National Institute on Drug Abuse
National Institute of Dental and Craniofacial Research
National Institute of Environmental Health Sciences
Synopsis: The purpose of this funding opportunity announcement is to support basic research examining how Electronic Nicotine Delivery Systems (ENDS) aerosols affect normal and disease states relevant to human cells, tissues and organs.
Application Receipt/Submission Date(s): Multiple dates, see announcement.

TITLE: Biologic Factors Underlying Dental, Oral and Craniofacial Health Disparities (R21- Clinical Trial Not Allowed)
(PAR-18-874)
SPONSOR: National Institute of Dental and Craniofacial Research
National Institute of Minority Health and Health Disparities
Synopsis: The purpose of this funding opportunity announcement (FOA) is to encourage exploratory/ developmental research on biologic factors that mediate the differences in prevalence and severity of Dental, Oral, and Craniofacial (DOC)-related diseases and conditions in oral health disparities populations.
Application Receipt/Submission Date(s): Standard dates apply.

OTHER FUNDING OPPORTUNITIES
(Sponsors in bold are NIH Peer Reviewed Organizations)

TITLE: Young Investigator Award (YIA)
https://www.conquer.org/young-investigator-award
SPONSOR: American Society of Clinical Oncology (ASCO)

TITLE: Professor Grants- Clinical Research Professor Grants
https://www.cancer.org/research/we-fund-cancer-research/apply-research-grant/grant-types/clinical-research-professor-grant.html
SPONSOR: American Cancer Society (ACS)

TITLE: Research Scholar Grants
https://www.cancer.org/research/we-fund-cancer-research/apply-research-grant/grant-types/research-scholar-grants.html
SPONSOR: American Cancer Society (ACS)
• **TITLE:** Lung Cancer Discovery Award  
  **SPONSOR:** American Lung Association (ALA)
